Mr. Kevin Phillips
Ecology and Environment, Inc.
111 West Jackson Blvd.
Chicago, Illinois 60604

Dear Kevin:

Enclosed is the water analysis results from the [Not responsive] family's well in Rock Falls. Please let me know if your chemists are able to make anything of this information.

As you may already know, there is an auto paint shop, a bulk oil storage plant and an asphalt storage plant all within a block of the [Not responsive] home. At one time there were at least two other bulk oil facilities and a cement plant located nearby. These have since been dismantled.

[Not responsive] was able to determine the owner and use of the building you mentioned in our recent conversation. Apparently it was used as a bulk storage facility of some sort. Unfortunately, I have not been able to speak to her personally regarding this, as yet.

Of course, you know that Masonite/Roxite is located about 1/3 of a mile from the [Not responsive] home. They manufacture reinforced fiber-glass building products.

I will keep you informed of further developments. I would appreciate your doing the same for me. Thank you.

Sincerely,

Michael L. Risse
Hazardous Waste Investigator
